

One Earth
by Coritha

We've ravaged our forests. And poisoned the air
We've plundered our oceans. And laid habitats bare

We've made our fortunes. From the riches of the land
Unmindful of the consequences We will reap in the end

Our senseless wars now haunt us. With bloodstains on our hands
And battlefield are smoldering. From our indifference

We've reached the summit. Of this foolish quest for gain
Sacrificed all living things Without sense or regret

Refrain:

I believe we have to make a choice. If we are to survive and carry on
We have one earth to live on. We have one earth to share
We have one earth to care for and respect

Time has come for us to heal. Restore this wounded land
Claim back our humanity. While we still have the chance

Let us light our torches. And proclaim to every man
That we are part of a community of life that God has planned

Refrain:

I believe we have no other choice. If we are to survive and carry on
We have one earth to live on. We have one earth to share
We have one earth to care for and respect

We have one earth to live on. We have one earth to love
We have one earth to cherish and protect

I believe we all must make a choice. I believe we have no time to lose
We have one earth to live on. We have one earth to share
We have one earth to care for and respect

We have one earth to live on. We have one earth to love
We have one earth to cherish and protect

We have one earth to live on. We have one earth to share
We have one earth to care for everyone

One earth for all living things. One earth for humanity
One earth in harmony. One earth
